

If you are young, you naturally appear so.

If you are old, why appear so? Ayer's Hair Vigor will surely restore color to your gray hair, and will give to it all the wealth and gloss of early life. It will stop falling of the hair also, and will keep the scalp clean and healthy, entirely free from dandruff.

And it makes the hair grow thick and long. This is because it is a hair-food, giving to the hair just what it needs to make it grow as nature intended.

Ayer's Hair Vigor

There's a pleasure in offering to you such a preparation; while you will certainly feel a sense of security in using something that others have used for half a century.

Do not be deceived by cheap imitations which will only disappoint you. Make sure that you get the genuine Ayer's Hair Vigor.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., U.S.A.

HURRICANE SWEEPS THE SOUTH SEAS

High Waves Dash Over Light House.

The Damage Done by the Wind Slight.

Force of the Storm is Felt From Tonga to Samoa.

The Royal Mail Steamer Aorangi, from Australia and the Colonies, came into port yesterday morning, and left at 4:30 in the afternoon. She had head winds and rough seas all the way, but not enough wind to retard her progress materially. The liner brought Sydney and Fiji papers telling of a terrific hurricane that passed close to and over a small part of the Fiji group on the 17th and 18th of January.

Of this storm, which was probably the same one that caught the schooner Eldorado and twisted her rudder out of shape, the Fiji Times of January 28 says:

"High winds and a low barometer all day on Saturday and during the early hours of Sunday morning last, were the ominous weather conditions—and presaged a 'blow.' The barometer continued to descend to about 29.35. Thereafter it began to rise slowly, and by Monday registered its normal reading. The wind blew from W.S.W. and was very squally on Sunday morning. The disturbance was unaccompanied with rain, or very little of it.

"The Government steamer Clyde proceeded to Wakaya on Tuesday morning to enquire into a report that the lighthouse there had suffered damage from a huge tidal wave that is said to have occurred there a fortnight since. Referring to the incident our Levuka contemporary of the 17th instant says: 'We believe that the tidal wave which broke on the lighthouse at Wakaya lifted a 7 cwt. crane, a ton block of concrete, smashed a quantity of reflector glasses, and several chimneys for the lamps, which were over 20 feet above the reef.'"

A few days after the paper was issued, the steamer Haurato arrived at Suva from Tonga and Samoa. The steamer met the gale when approaching Tonga from Auckland. She reported that no damage had been done by the hurricane at either Tonga or Samoa, although the storm had been felt at both places. The damage in the Fijis proper was very slight, according to latest advices, a few banana plantations being ruined and some coconut trees blown down. No loss of life is reported.

Lost Cable Buoy Found.

The steamer J. A. Cummins has picked up the lost cable buoy which was reported by the schooner Kawallani to be floating somewhere in neighborhood of the islands. The schooner had tried to tow the buoy into Honolulu.

LOSING FLESH.

Are you losing flesh? If so, better consult your doctor at once. He will tell you the cause. We can provide the remedy, which is Scott's Emulsion of cod-liver oil.

We have known persons to gain a pound a day, by taking an ounce of the Emulsion.

A young woman in Batavia writes us she had lost twenty-five pounds in three months, and her lungs were seriously affected. She took three bottles of Scott's Emulsion and gained fifteen pounds, and was able to resume her work.

It will cure consumption in the early stages. It is a remarkable flesh producer.

Send for Free Sample.

SCOTT & BOWNE, Chemists, 409 Pearl St., N. Y.

but the weather was too rough for the job, and Captain Searle of the Cummins had determined to make an effort to get this menace to navigation out of the way. He found it at eleven o'clock on Monday, about four miles outside of the reef, and despite the fact that a heavy sea was running, it was towed inside the lagoon to safety. The buoy is valued at \$1500, and is the property of the cable construction company. It will be restored to the company, probably, but subject to the salvage claim.

Hongkong Maru in Port.

The Toyo Kisen Kaisha liner Hongkong Maru reached port yesterday afternoon late, having been delayed outside for the Aorangi to pass out of the harbor. The Hongkong Maru made the run down in a little more than five days, and brought six days' mail. She had rough weather the whole trip, but no storms, and sighted nothing on the way down. Her passenger list was not large. She will probably resume her voyage at noon today.

KILLED BY SHARK IN SYDNEY HARBOR

There is a pest of sharks in harbor of Sydney, and on the morning of the 12th of January, according to the Herald of that town, a young man by the name of Stanley F. James, bathing in the upper reaches of the Lane Cove river, was seized by one of the monsters, which, after he had made a desperate struggle to free himself, snapped off his left leg several inches above the knee. He was taken out of the water immediately after being bitten, but died a few hours later from loss of blood and the effect of the shock.

James was in the water with two younger brothers, and, swimming out from them, was attacked as soon as he reached deep water. He fought the shark off after it had drawn him under once, even though he was terribly bitten then. The fish renewed the attack, and on the second seizure bit the man's leg off clean.

Some men rowing in a boat near by went to his help, but did not get up in time to save the man or kill the shark.

MYRTLE BOAT CLUB OFFICERS

The annual meeting of the Myrtle Boat Club was held last evening and a new corps of officers elected for the ensuing year. The meeting marked the twentieth year of the life of the club, and was notable for the retirement from the presidency of A. G. M. Robertson, who for eleven years presided over the destinies of the organization. There were many expressions of regret as to this decision of the official, but he announced that he could not serve the club longer, and wished that new blood might be placed in its control. The reports read showed that the club is in good shape financially and otherwise.

The new board of officers was as follows: W. W. Harris, president; A. Perry, vice-president; J. F. Soper, secretary; C. S. Crane, treasurer; G. Harris, auditor; W. C. Parke, W. H. Soper and A. A. Wilder, trustees.

FIRST BOAT OF CHINESE LINE

The first steamer of the new China Commercial line will leave Hongkong on March 27, calling at Shanghai, Kobe, Yokohama and Honolulu, for Manzanillo, Mexico, and on her return trip will go by way of San Francisco. Eng Hok Fong and Leung Kam Ming are now in San Francisco, en route home from Washington and the City of Mexico, where they have made all the preliminary arrangements essential to the starting of the new line. Four vessels have been chartered in England for the use of the new company and are said to be fine ships. It is the belief of the officers of the new company that a big business will be done acry-freight from Manzanillo to the Orient. Eng Hok Fong is the president of the company, and J. S. Van Buren is general manager.

Shipping Notes.

The bark Albert sailed for San Francisco yesterday with a full cargo of sugar.

The schooner Ada has been towed into the harbor and will be repaired here.

The big freighter Nebraska is expected to reach port from San Francisco on Saturday.

Captain Rinder of the Coptic has been arrested in San Francisco for letting seven Chinese escape.

Reinsurance on the Florence dropped ten cents when the Alameda reported seeing distress signals.

The Inter-Island steamer Waiialeale has broken the storm blockade at Kauai and reached port yesterday.

The Enore is unloading salt and the Mikahala sugar at the Railway wharf, and the two are lying alongside each other.

Captain Meyer of the German bark Henry, reports a derelict, bottom up, in latitude 25 degrees 8 minutes north, longitude 132 degrees 22 minutes west.

The distress signals sent by the Alameda on its outward trip were observed at 7:30 o'clock, on the night of January 20, 571 miles from Honolulu. There were five or six flares of light on the port beam. Captain Dowdell, who was on the bridge, made out a square rigger. The Alameda headed for the vessel, but she could not be found, nor were the lights seen again. The night was dark and stormy. After an hour's search the Alameda went on.

COUNTIES DIVIDED BY CLASS

Taxation Is Made Basis of the Rating.

Legislators Listen to and Question the Farmers.

Amendments and Amounts of Salaries Will Be Considered at Later Meetings.

Republican members of the Legislature spent last evening in conference with members of the Commission which framed the county measure. United States District Attorney Breckons, who framed the bill and who is better known in connection with it, and who also knows it better, than any of the others, was also in attendance, and assisted in the more complete understanding of the bill by the men who must pass upon it later. There were only two amendments agreed upon, but later meetings will be held at which the ideas of the legislators will be pressed.

It was demonstrated during the remarks of Mr. Breckons, and by the answers to queries during the three hours of session, that there are some changes which may be made without destroying the coherency of the measure, but in its general lines it was found to fit the situation. Many of the hitherto proposed changes were seen to be out of place when the whole measure is considered. The division of counties was changed only to provide that to Oahu county is to be added all islands not mentioned in the bill. This is to take care of Midway and such small and detached islands. In Oahu county the districts were changed so as to provide for Ewa and Wai-anae district.

The salary bill, embodying as it does the provisions for consolidation of officers in various counties, was introduced and will be taken up at later caucuses. The bill contains eighteen sections. Of these the last thirteen simply enumerate the offices and as the amounts of salary are blank they are omitted, the ones which cover the classification of counties being as follows:

Section 1. For the purpose of fixing the compensation to be paid to county and district officers, the counties of the Territory are classified as follows:

1. Counties having an assessed valuation of more than fifty millions of dollars shall be counties of the first class.
2. Counties having an assessed valuation of more than fifteen millions of dollars and less than fifty millions, shall be counties of the second class.
3. Counties having an assessed valuation of less than fifteen millions of dollars shall be counties of the third class.

Sec. 2. The assessed valuation of each county in the Territory for the year in which there is held a general election shall determine to what class such county shall belong during the succeeding two years.

Sec. 3. In counties of all classes, the sheriff shall be, by virtue of his office, the corner therein, and shall perform such duties in that regard as are prescribed by law; and the bond required by law to be given by such sheriff shall cover any and all violations of his duty as corner, and any and all failure on his part to pay over to the proper persons any money received by him as corner, and any failure or failure on the part of such sheriff to deliver to the person or persons authorized by law to receive the same, any books, papers or other things pertaining to his duties as corner.

Sec. 4. In counties of the second and third class the county treasurer of each county shall be by virtue of his office collector of taxes therein; and the county clerk of each county shall be by virtue of his office recorder therein; and in such counties of the second class such officers shall perform such duties in that regard as are prescribed by law. The bond respectively given by such county treasurer and such county clerk shall cover any and all violations or violations of the duties of such officer as collector of taxes or of recorder, and any or all failure or failure on the part of such officers to pay over to the proper person or persons any money by him as collector of taxes or as county recorder, and any or all failure or failure of said treasurer or said county clerk to deliver to any person or persons authorized by law to receive the same, any books, papers, or other things pertaining to his duties as collector of taxes or as county recorder.

Sec. 5. In counties of the third class the auditor of each county shall be by virtue of his office assessor of taxes therein, and shall perform such duties in that regard as are prescribed by law; the bond required by law to be given by such auditor shall cover any or all violations of his duties as such assessor;

and any or all failure or failure on the part of such officer to pay over to the proper person or persons any money received by him as assessor, and any or all failure or failure of said assessor to deliver to any person or persons authorized by law to receive the same, any books, papers or other things pertaining to his duties as assessor of taxes.

There will be considered and presented to the caucus of Republicans later the bill drawn by Lihue Republicans, placing the control of the schools under the counties, but providing as well a Territorial Board which shall have charge of the issuance of certificates and the normal and other Territorial schools. The organization of county boards of education and the election of a county superintendent is provided, as well as the machinery for the control of the various schools under the Board of Education and the Board of Supervisors of the counties.

Home Rule legislators will meet today or tomorrow for the purpose of taking up the consideration of a county bill drawn for them by J. M. Poepe. The measure is said to be a complete one. There will be however general discussion of the Republican bill as well, as there are many members of the minority who think it would be wise to suggest alterations in that measure for the purpose of endeavoring to secure changes and hoping that there may be had the support of many Republicans who have amendments to suggest as well, and will want votes to carry them through.

SHORT MAN ON THE WAY TO THE REEF

(Continued from Page 1.)

of the car, and for his service he got \$8 of the \$28 which were taken.

Later he went with Brown and Henry Williams, or Thomas, to Waikiki and there began his work of house breaking. They first went to the Holmes place, where they kicked in the door of the servant's house and his money was taken. According to Mack he was used as the watcher all the time, for he was left outside on that occasion and when the trio went on to the Beckley place, again he was on the road. He said that though the two who entered the Beckley house, Brown and Williams, seemed to have something in their pockets he did not get any part of the swag, and does not know anything of the silver.

After that he went with James and Snow to the Chinese store in Br. Challa street. There again he was left outside and he watched at the bus while the others went in and made the touch. He said he stood there for a long time and then he heard James and Snow coming running out. He joined in the race but they soon separated and went home, while they ran on. Finally he was awakened from his slumber, in the morning, when he found the others beside him. They gave him \$5. He saw them later and James had new clothes and seemed to have money.

Mack was confronted with Brown and Snow and identified them, but beyond making disclaimers of their connection with the affairs of which Mack had told, the two said nothing. There is still another of the gang under surveillance of the police and it is hoped to get him later. Mr. Chillingworth said last evening, however that he thought he had the hui which has been doing the jobs and that speedy convictions would follow.

WHEN YOU HAVE A BAD COLD.

You want a remedy that will give quick relief and effect a permanent cure.

You want a remedy that will relieve the lungs and make expectoration easy.

You want a remedy that will counteract any tendency toward pneumonia. You want the best medicine that can be obtained.

You want Chamberlain's Cough Remedy.

It always cures and cures quickly. Benson, Smith & Co., Ltd., wholesale agents, sell it.

BANK EMPLOYE INSANE IN PRISON

(Continued from page 1.)

McElroy was taken to the station. When he was searched there \$32.45 was found on his person, three hundred and ten dollars of it being in bright, new ten dollar gold pieces. Dr. Cooper called on McElroy at the station last night, and expressed the belief that the young man's mental condition would improve under treatment. McElroy will be cared for, and watched carefully. His home is in Pennsylvania.

Is your Hair worth One Dollar?

If so, buy a bottle of Newbro's Herpicide and stop that dandruff that is slowly but surely rendering you bald.

NEWBRO'S HERPIDICE

is the only preparation on the market that really will stop it, for it is the only one that kills the microbe at work on the hair root, thus destroying the cause and consequently removing the effect.

One trial will convince you, the same as it has this "Doubting Thomas".

SAN FRANCISCO, CAL., Dec. 1, '92. When I bought that bottle of Herpicide a few months ago, like the majority of each preparation, I thought it would prove a fake, but I am happy to state that it does all, and even more, than you claim for it. My hair is growing rapidly. Respectfully, A. J. KELLY, 215 Broadway St.
